BONDS: In 2008, the City upgraded its water and sewer treatment facilities to meet EPA arsenic standards and protect public health. These improvements were funded through a 30-year bond, which will be paid off in 2038.

ANNUAL BACKFLOW TESTING

The City of Buhl, as required by the Idaho Department of Environmental Quality (DEQ), mandates annual testing of backflow prevention assemblies by a State of Idaho licensed tester (IDAPA 58.01.08.552.06). This testing protects drinking water from contamination caused by cross-connections such as irrigation(sprinkler systems), pools, and fire suppression systems. Pressurized irrigation systems are exempt

***We will send annual reminders.**
