Key No. 20633

# Welcome to the Burley Ave; US-30 to Fruitland Ave Virtual Public Hearing

Project Sponsor: City of Buhl  
Project Administrator: LHTAC  
Project Engineer: HMM Engineering

# Burley Ave Us-30

---

Burley Ave; US-30 to Fruitland Ave

The City of Buhl with the assistance from the Local Highway Technical Assistance Council and the Idaho Transportation Department (ITD) is designing improvements to Burley Avenue.

The project will begin at Fruitland Road, and end at the intersection of US Highway 30 (US-30) and State Highway 46 (SH-46) , a distance of approximately 1.02 miles.

This roadway experiences significant agricultural and industrial truck traffic from the City and from south of the City, providing a critical link to US-30 and SH-46 at Burley Corner.

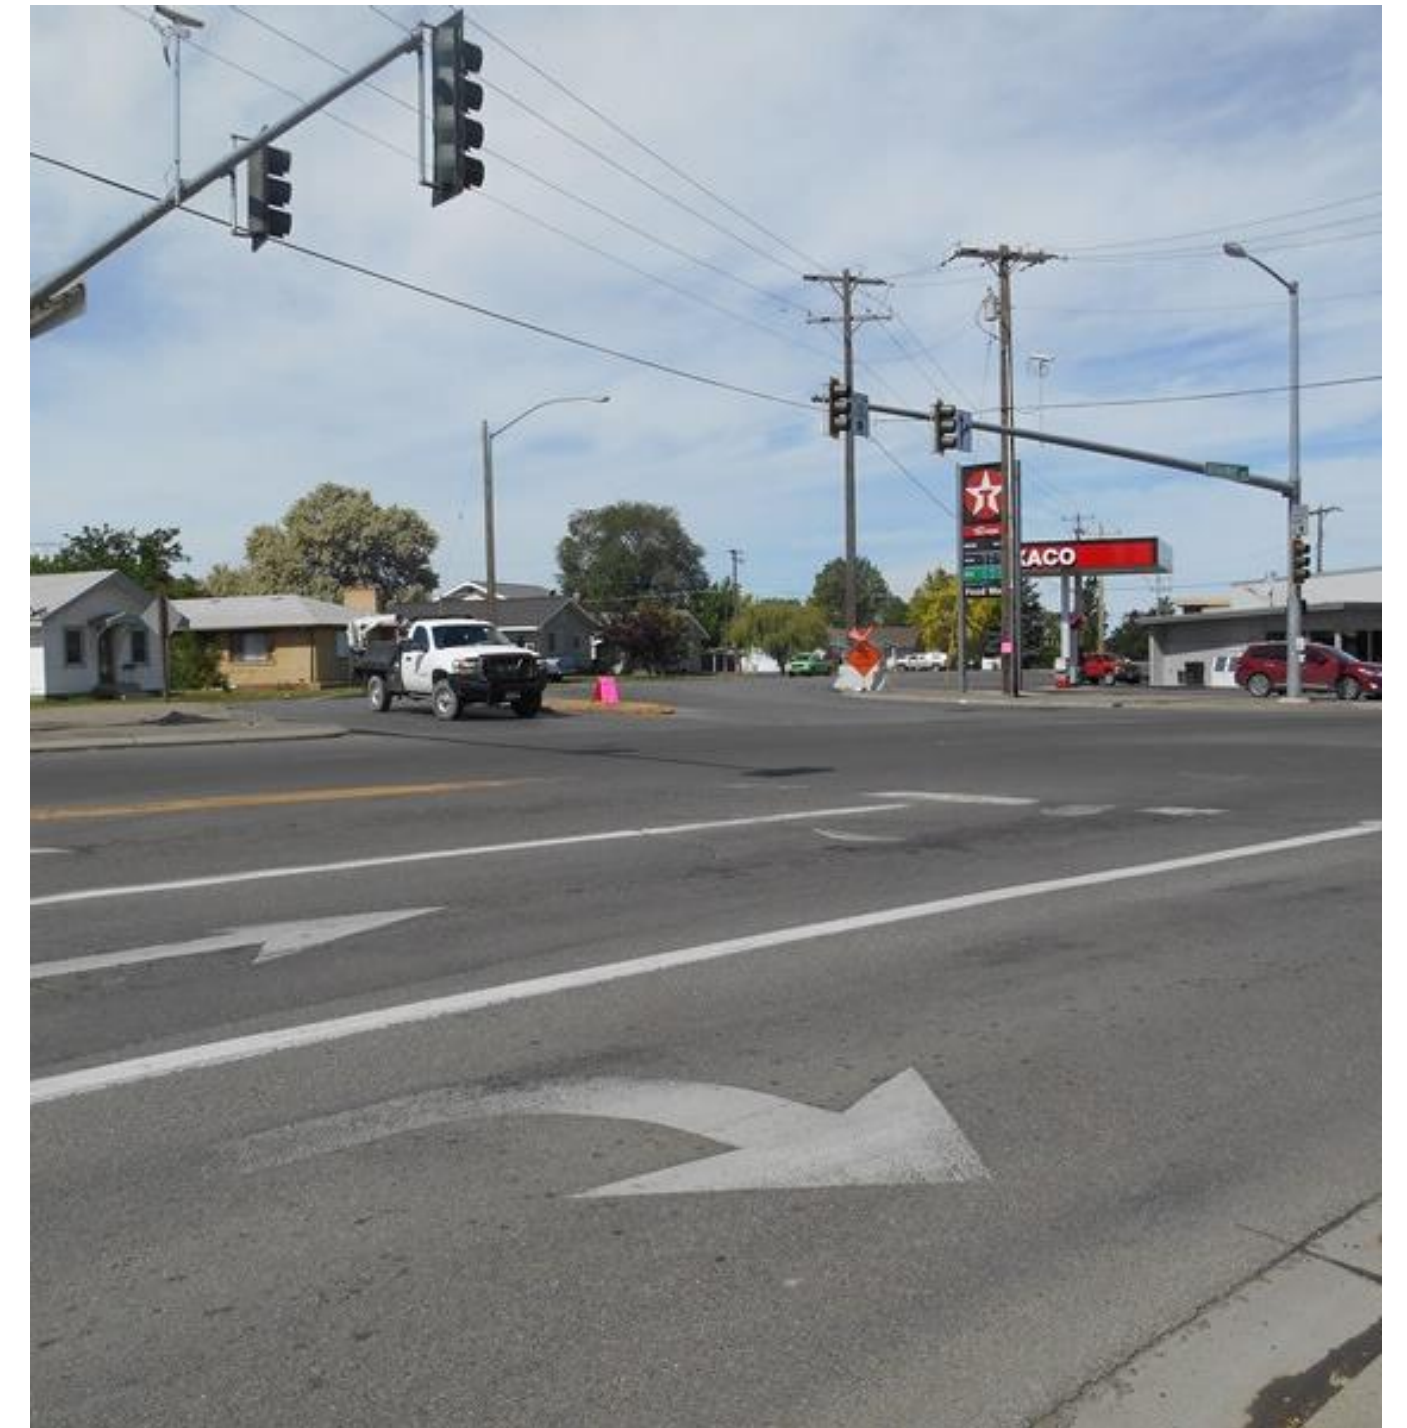

Construction is anticipated to begin 2025

# Design Details

Due to the high volume of truck traffic on the road, this project will reconstruct the existing roadway including asphalt and base, as well as increase the roadway width from 24 to 34 feet.

## Improvements include:

- Reconstructing roadway
- Increasing roadway width
- Curb, gutter, Storm sewer
- Sidewalk improvements
- Pavement markings

# Environmental

---

**Cultural Resources:** An Archaeological and Historic Survey Report was completed for the project. One National Register of Historic Places (NRHP) eligible cultural resource was identified within the project area, Sunset Bowl. Project actions (the addition of a sidewalk, curb, and gutters) will have a minimal impact to the site and will not alter the eligibility of the NRHP-eligible resource. Therefore, project actions will result in No Historic Properties Affected.

**Waters of the U.S.:** A Joint Application for Permit involving the U.S. Army Corps of Engineers, Idaho Department of Water Resources, and Idaho Department of Environmental Quality will be required for impacts to waters of the U.S. including wetlands.

**Sole Source Aquifer:** There will be no impacts to the Snake River Plain Sole Source Aquifer.

# Anticipated Timeline

Please note: all project timeline dates are tentative

# Community Input

## We value your input.

If you would like to provide a verbal testimony about this project please call  
Aaron Wert at (208)358-8900 extension #1301.

If the line is busy leave your testimony message along with your name, contact  
information, and your property address.

Please note: all testimonies will be recorded for documentation purposes.
