

## **CITY OF BUHL BUILDING DEPARTMENT DESIGN CRITERIA**

Ground Snow Load	30 psf
Wind Load (Ultimate)	90 mph, 3-second gust; IBC for risk category II
Height And Exposure Adjustment Coefficient	“C”
Seismic Design Category	“C”
Design Temperature	0°F
Weathering Probability Rating For Concrete	“Severe”
Frost Line Depth	24” below the finished grade
Ice And Water Shields On Roof Eaves	Not required
